

EMPLOYEE SPOTLIGHT

MICHELLE DANIELS

Purchaser

MURFORM

After joining Murform a year ago as an Administrator, Michelle has taken on a new challenge as our Purchaser – and it's safe to say she has settled into the role brilliantly!

"My days are anything but predictable". From ordering goods for sites and organising the hire of tools and plant, to liaising with suppliers, negotiating costs, arranging deliveries and working closely with site managers and directors to solve whatever problems come their way and of course, "there's plenty of coffee involved!"

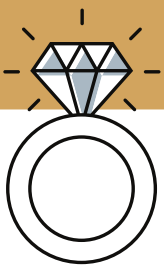

Michelle told us that taking on the purchasing role was a step outside her comfort zone, but with management spotting her potential and encouraging the move, it has quickly become what she considers to be her biggest achievement since joining Murform. While she claims she still "has a long way to go", we think she is smashing it!

"What I enjoy most about my role is the variety, the family culture and working alongside my colleagues in the office every day!" As for favourite projects there's just one firm request: "Anything but windfarms- the logistics are challenging!!"

"My biggest highlight since working at Murform has been finding love along the way!" Michelle and her future husband, who also works for the company, recently got engaged whilst on holiday. The whole team couldn't be happier for them!

Outside of work, Michelle loves travelling - "whether that means a long-haul holiday or simply jumping in the car for a trip up North".

And finally, while she admits she may not be the best at managing her own finances, when it comes to keeping an eye on Murform's spending, she's certainly found her calling!

At Murform, we believe in building careers and empowering our team with the tools, training, and confidence they need to grow. Whether that means developing their skills or taking the next step into a new role, we're committed to supporting our people every step of the way.
